1. Introduction

1.1 Purpose

This Software Requirements Specification (SRS) defines the complete functional requirements for the Hotel Pramod Sales CRM and Centralized Reservation System (CRS). The system is designed to manage multi-branch hotel operations — room reservations, banquet and event bookings, lead management, corporate contracts, F&B packages, billing, and guest communications — through a single unified platform.

This document is prepared by Veteran Ventures Pvt. Ltd. reference throughout the software development lifecycle.

1.2 Scope

The platform covers the following functional domains:

- Centralized Reservation System (CRS) — multi-branch room inventory, availability calendar, and booking engine
- Sales CRM — lead management, sales pipeline, quotation, negotiation, and contract generation
- Banquet & Event Management — inquiry-to-confirmation flow, session scheduling, venue management
- F&B Package Management — menu grids, meal packages, session-wise costing
- Corporate Account Management — contracts, rate structures, and BTC billing
- Financial Module — GST invoicing, DS numbering, advance and balance tracking
- Communication Module — property-wise email routing, document delivery, and notifications
- Reporting & Analytics — sales, occupancy, banquet, and financial reports

1.3 Definitions and Acronyms

Term	Definition
CRM	Customer Relationship Management — lead-to-conversion pipeline
CRS	Centralized Reservation System — unified room booking across all branches
F&B / FNB	Food and Beverage
GST	Goods and Services Tax — 18% (rooms); 5% (banquet F&B)
CP	Continental Plan — accommodation + breakfast
AP	American Plan — accommodation + all three meals
MAP	Modified American Plan — accommodation + breakfast + dinner
RBI Rate	Room Base Index — baseline rack rate per room type
BTC	Bill to Company — deferred billing for corporate clients
DS	Document Serial Number — auto-generated per financial year
PAX	Number of persons / guests

Term	Definition
Booker	Person making the reservation (may differ from guest)
Tentative	Provisional booking hold pending confirmation
AP (CRM)	Action Point — follow-up task assigned to sales executive
BMS	Banquet Management System — sub-module of this platform

1.4 System Overview

Hotel Pramod operates 4 branches and requires a single integrated platform that consolidates all sales, reservations, events, and guest communications. The platform supports role-based access for Sales Managers, Front Desk, Banquet Coordinators, Finance, and Administrators. All branches share a centralized database with property-level segmentation.

2. System Architecture Overview

2.1 Technology Stack

- Frontend: React.js — responsive web application with role-based dashboards
- Backend: Node.js / Express — RESTful API layer
- Database: PostgreSQL — multi-branch schema with property-level partitioning
- Email Engine: SMTP-based, property-wise email routing
- Document Generation: PDF engine for quotations, contracts, and invoices
- Notifications: In-app alerts + email triggers
- AI Layer (Phase 2): Lead scoring, follow-up reminders, occupancy prediction

2.2 User Roles & Access

Role	Scope	Key Permissions
Super Admin	All branches	Full system access, configuration, user management
Branch Manager	Single branch	All modules for assigned property
Sales Manager	All branches	Leads, quotations, contracts, CRM reports
Sales Executive	Assigned leads	Lead management, inquiry creation, follow-ups
Banquet Coordinator	Single branch	Banquet bookings, event scheduling, F&B
Front Desk	Single branch	Room reservations, check-in/check-out, guest comm.

3. Module 1 — Centralized Reservation System (CRS)

3.1 Room Inventory Management

3.1.1 Room Type Configuration

- Support minimum 5 room type categories per branch (Standard, Deluxe, Premium, Suite, Service Apartment)
- Each room type: category, floor/wing, occupancy capacity, base rate (RBI), GST rate, add-on options, amenities
- Rate formula: Rate = (Base Rate + GST) × Nights × Number of Guests
- Category-wise room booking interface with live availability view
- Minimum 25 rooms per branch, scalable architecture

3.1.2 Rate Types

Rate Type	Description	Configuration
RBI Rate	Room Base Index — baseline rack rate	Set per room type per branch
Contract Rate	Negotiated rate for corporate clients	Defined in corporate contract module
Guest Rate	Rate for individual walk-in or online guests	Derived from RBI with applicable discounts
Kings Discount	Special discount for loyalty/VIP guests	Percentage or flat discount, logged in notes
Specific Rate	Contract-wise custom rate for a specific occasion	Defined in booking form at reservation time

3.2 Availability Calendar

- Visual calendar: room availability by type and date range — multi-branch simultaneous view
- Check-in / Check-out date selection with real-time availability refresh
- Color codes: Green (Available), Amber (Tentative Hold), Blue (Confirmed), Red (Blocked)
- Interface for quick review of hotel rooms across all branches

3.3 Booking Lifecycle

3.3.1 Status Flow

Status	Description	Trigger
Inquiry	Initial room request received	Manual entry or web form
Quotation Hold	Room held while quotation is being prepared	Sales executive action
Tentative Hold	Room held pending client confirmation	Partial advance or verbal confirm

Status	Description	Trigger
Confirmed (Unpaid)	Booking confirmed; full payment pending	Signed quotation / contract(only for closed ones)
Confirmed (Paid)	Booking confirmed; advance received	Payment recorded in system
Sold Out	Room type/dates fully occupied	System auto-trigger at zero inventory
Cancelled	Booking cancelled per cancellation policy	Client request or no-show
Checked In	Guest arrived and registered	Front desk action
Checked Out	Guest departed; final bill settled	Front desk checkout action

3.3.2 Booking Form — Key Fields

- Booking ID — auto-generated DS number (financial year–based, sequential)
- Property / Branch — dropdown selection
- The system includes a **Booker Type** field with options such as Agent, Corporate, Individual, and Travel Agent; it captures Booker details including name, email, phone, and company (for corporate bookings), along with Guest details such as name, email, and phone, with an option to mark “Booker same as Guest” for convenience.
- Room type, occupancy, check-in / check-out dates
- Meal plan: CP / AP / MAP / Room Only
- Number of adults and children; extra person charges per branch config
- Rate type: RBI / Contract / Specific Rate (with override note)
- Add-ons and complimentary items
- Special notes / requests field
- Kids zone inclusion flag
- Booking source: Agent / Corporate / Individual / Travel Agent / Walk-in

3.3.3 Financial Summary

Field	Description
Sub Total (RBT)	Rate × Nights × PAX — before tax
GST Amount	Calculated at applicable rate (18% rooms / 5% banquet)
Total Amount	Sub Total + GST
Advance Received	Amount paid upfront
Balance Due	Total Amount minus Advance Received
Cancellation Policy	Configured per property; displayed on confirmation

3.4 Meal Packages

- CP (Continental Plan): Room + Breakfast
- AP (American Plan): Room + All Three Meals (Breakfast, Lunch, Dinner)
- MAP (Modified American Plan): Room + Breakfast + Dinner
- Room Only: No meal inclusion
- Custom Package: Property-defined inclusions

If the room tariff is ₹7,500 or below, GST is charged at 5%, and if it is above ₹7,500, GST is charged at 18%;

3.5 Check-in / Check-out

- Front desk interface for walk-in and pre-booked guest check-in
- Room assignment from live available inventory
- Extra bed / extra person charges applied at check-in
- Check-out billing: Final invoice with outstanding balance, mini-bar, extras
- Billing mode dropdown: Cash / Card / UPI / BTC
- Amenities checklist at checkout

3.6 Group Booking

- Multiple rooms across same or different branches in a single booking
- Minimum amount threshold for group discount eligibility
- Group lead assigned to Sales Manager
- Per plate / per person pricing for group F&B inclusions
- Session and time-slot management for coordinated group check-ins
- Duplicate check: System alerts if same contact has an existing active inquiry

4. Module 2 — Sales CRM

4.1 Lead Management

4.1.1 Lead Sources

Lead Type	Description
Referral	Lead referred by existing guest or partner; referral source recorded
Direct Inquiry	Walk-in, phone, email, or web form submission
Lead Generated	Proactive outreach by sales team — cold calls, campaigns
Corporate	Inquiry from a registered corporate account
Social Event	Inquiry for wedding, birthday, anniversary, or other social function
Travel Agent	Lead routed through a registered travel agent

4.1.2 Lead Record Fields

- Lead ID (auto-generated), Date Created, Assigned Sales Executive
- Contact: Name, email, phone, company (if corporate)
- Segment: Room / Room + Banquet / Banquet Only
- Inquiry type: Accommodation / Event / Combined
- Property of interest — multi-select for multi-branch inquiries
- Hold duration — how long the room or venue is to be reserved
- Lead Source: Referral / Direct / Agent / Corporate / Social Media / OTA
- Interest tags: Prospect month, occasion (birthday, conference, anniversary)
- Status: New / In Progress / Quotation Sent / Negotiating / Won / Lost / Dormant
- Notes — free text and structured fields
- Action Points (AP) — assigned follow-up tasks with due dates and status
- Conversion link to Booking record on winning the lead

4.1.3 Duplicate Prevention

- System checks phone and email against existing leads before creation
- Duplicate alert shown with existing lead details on match
- Option to update existing record or create a linked follow-up inquiry
- No duplicate records permitted — existing leads flagged and linked

4.2 Sales Pipeline

Stage	Color	Description
Inquiry	Red	Lead received; no response sent yet
Quotation Sent	Orange	Formal quotation emailed to client
Tentative Hold	Amber	Verbal or partial advance received; room/venue held

Stage	Color	Description
Negotiation	Blue	Client has counter-proposed; active rate discussion
Confirmed	Green	Full advance received / contract signed
Lost	Gray	Lead closed without conversion

4.3 Quotation Management

4.3.1 Quotation Content

- Auto-generated Quotation Number (property code + financial year + sequential)
- Date of quotation and validity period
- Client name with Dear Sir / Ma'am salutation
- Accommodation: Room type, rate, occupancy, meal plan, check-in/out, extra persons, MAPC
- F&B: Package, menu, venue, timing, session, rate
- Financial summary: Sub total, GST (18%), Total Amount, Advance required, Balance due
- Cancellation policy, Liquor policy, Terms & Conditions, Special Notes

4.3.2 Quotation Workflow

- Auto-sent by email by default (manual send configurable per property)
- CC and BCC support configurable per communication type
- Preview and edit before sending; full version history maintained
- Track: Sent / Viewed / Accepted / Rejected / Revised
- Multiple revisions allowed with version comparison

4.4 Contract Management

- Contract auto-generated on booking confirmation — PDF on hotel letterhead
- Includes: Transaction date, threshold payment deadline, cancellation clauses, liquor policy, T&C
- Two flows: (1) Hotel proposes contract to client; (2) Corporate client submits their own
- BTC companies: No advance required; billing direct to company; BTC letter stored against booking
- Digital acknowledgement / e-signature field supported
- Contract expiry tracking and renewal alerts for corporate accounts

4.5 Corporate Contract — Rate Management

- Corporate profile: Company name, RBI Rate, Contract Rate, billing mode, volume estimates
- Rate Can Change flag: Override requires approval workflow and audit log entry
- Kings Discount: Configurable per corporate account (% or flat amount)
- Suggest Rate Type: Rule-based recommendation based on booking parameters
- Session-wise and property-wise rate tables per corporate

4.6 Action Points & Follow-ups

- Unlimited Action Points per lead: task, assignee, due date, status (Open / Done / Escalated)
- Auto-reminder notifications for upcoming and overdue APs
- Full interaction history viewable by managers

5. Module 3 — Banquet & Event Management

5.1 Event Categories

Category	Sub-Types	Description
Corporate	Conference, Seminar, Meeting, Team Off-site	Business events hosted by corporate clients
Social	Wedding, Birthday, Anniversary, Engagement	Personal celebration events
Group	Tour groups, Association gatherings	Bulk attendee events often tied to room bookings

5.2 Banquet Types

- With Room: Banquet event bundled with room booking; room charges included in billing
- Without Room: Stand-alone banquet/event with no room component

5.3 Venue Management

- Multiple venue types per branch: Banquet Hall, Lawn, Conference Room, Terrace
- Venue capacity (min / max PAX), floor plan notes
- Session-based time slot management: Morning, Afternoon (e.g., 12:30–3:30), Evening, Full Day
- Custom slots configurable per property
- Conflict detection prevents double-booking of the same venue and session

5.4 Booking Flow

1. Inquiry received for any occasion — session and date selected
2. Venue hold placed; quotation generated and sent
3. Negotiation — rate discussion and menu finalization
4. Tentative Confirmation — venue held; advance may be partial
5. Final Confirmation — advance received; contract signed
6. Function Prospectus issued to operations team
7. Event execution with flow-of-function timeline
8. Post-event billing and closure

5.5 Banquet Pricing

Rate Component	Description
Publish Rate	Standard listed rate before discounts
After Discount	Rate after negotiated discount applied
Hall Charges	Fixed venue hire fee per session or per day
Venue Charges	Additional charges for lawn, terrace, or special setups

Rate Component	Description
Per Plate / PAX	F&B cost per attendee
Guaranteed PAX	Minimum confirmed headcount; billing basis
Actual PAX	Final attendance; billing adjusts upward if actual > guaranteed

GST on Banquet: 5% applicable for F&B and venue; 18% where room component is included. System displays CGST + SGST split.

5.6 Menu Grid

Package	For	Description
Deluxe	Social, Corporate	Standard multi-course menu
Premium	Corporate, Social	Enhanced menu with additional items
Super	High-end social	Premium menu with luxury inclusions
Banquet Social	Social events	Tailored menu for weddings and celebrations
Custom	Any event type	Client-specified menu, priced per booking

5.7 Slot Color Management

- 3-color process: Red (Enquiry / Available), Amber (Tentative), Blue (Confirmed)
- Slots displayed as time blocks (e.g., 12:30–3:30); each block independently bookable
- Slot conflicts automatically detected and blocked at booking time
- Booking management view: all slots across all venues with conflict overview

6. Module 4 — Corporate Account & Agent Management

6.1 Corporate Account

- Company profile: Name, address, GSTIN, primary and alternate contact persons
- Billing mode: BTC (Bill to Company) or advance-based
- Contract: RBI Rate, negotiated rate, effective dates, renewal terms
- Estimated room volume per year; room preference notes; special terms
- CRM lead history linked to corporate profile
- Session-wise packs with amount and cost maintained in T&C

6.2 Travel Agent Management

- Agency profile: Name, contact, commission rate, IATA/TIDS number
- Bookings linked to travel agent for commission calculation
- Agent-specific rate plan configurable per property
- Monthly commission report generation

6.3 FNB Services — CRM Booking

- Booking Confirmation: Name, contact details, segment type (Social / Corporate)
- Manager → Sales Track assignment
- Prospect calendar: Month, occasion type (birthday, conference, interest area)
- Lead segmented as: Room / Room + Banquet / Banquet Only
- Duplicate check: No duplicate records permitted

7. Module 5 — Financial & Billing

7.1 Invoice Structure

- Property letterhead: logo, address, GSTIN, contact
- Invoice Number: DS ID format — [Property Code]-[FY]-[Sequential Number]
- Invoice Date, Transaction Date
- Booker / Guest Name and address
- Booking details: Room type, dates, PAX, meal plan, rate
- F&B details (if applicable): Package, menu, venue, session, timing, rate
- Amount breakdown: Sub Total, GST (CGST + SGST split), Total Amount
- Advance received, Balance due, Payment mode(s)
- Cancellation policy, notes, and special terms

7.2 Document Serial (DS) Number

- Auto-generated upon booking confirmation
- Format: [Property Code]-[Financial Year]-[Sequential Number]
- Status: Active → Number auto-generated on confirmation
- Counter resets at start of each financial year
- Reprint / regeneration of documents supported with audit trail

7.3 Payment Milestones

Payment Event	Description
Advance (Partial)	Initial deposit to hold booking; triggers Tentative → Confirmed
Balance Payment	Remaining amount due before or at check-in / event
Full Prepayment	100% payment at time of booking
BTC Billing	Deferred billing; invoice raised to corporate at month-end
50% Advance Rule	Default advance policy — configurable per property

7.4 GST Compliance

- 18% GST (CGST 9% + SGST 9%) on room bookings
- 5% GST on banquet / F&B (configurable per government notification)
- GSTIN of property and client captured and printed on invoice
- Monthly GST summary report per property
- GST invoice format compliant with Indian GST Act and CBIC guidelines

7.5 Cancellation & Refund

- Cancellation policy defined per property and booking type; shown on quotation and invoice
- System records: cancellation date, amount forfeited, refund due
- Refund initiation workflow with finance team approval

8. Module 6 — Communication & Document Module

8.1 Email Routing

- Property-wise sender email configuration — each branch has its own email identity
- CC and BCC support configurable per communication type
- Preview and edit before sending any communication
- Email templates: pre-built and editable per property for each communication type

8.2 Communication Types

- Quotation email — auto-sent by default on quotation generation
- Confirmation email — auto-triggered on advance payment receipt
- Pre-arrival reminder — configurable days before check-in / event
- Post-stay thank-you and feedback request
- BTC letter — issued and archived against corporate booking
- Contract delivery — PDF attached to confirmation email

8.3 Internal Notifications

- Sales Manager: new lead assignment alert
- Sales Executive: AP due-date reminder; overdue escalation
- Banquet Coordinator: slot conflict alert
- Finance: payment receipt confirmation; outstanding balance alert
- All stakeholders: cancellation notification

8.4 Document Date Management

- All documents carry: Date, Month, Year fields
- Financial year tracking for DS number generation
- Quotation validity, contract end date, rate validity — expiry tracking
- Preview → Edit → Send workflow with complete audit trail

9. Module 7 — Reporting & Analytics

9.1 CRM Reports

- Lead pipeline by stage, branch, and sales executive
- Conversion rate: Inquiry → Quotation → Confirmation
- Lost lead analysis with reason frequency breakdown
- Referral source analysis: which channels generate confirmed bookings
- Sales executive performance: leads handled, won, lost, revenue generated
- Prospect calendar: upcoming birthdays, anniversaries, conferences

9.2 Reservation Reports

- Occupancy by room type, branch, and date range
- Revenue per available room (RevPAR)
- Check-in / Check-out forecast (next 7 / 30 / 90 days)
- Room status summary: Occupied / Available / Blocked / Tentative
- Group booking summary and cancellation impact report

9.3 Banquet Reports

- Event calendar: Confirmed, tentative, and available dates
- Revenue by event type (Corporate / Social / Group)
- Venue utilization: Sessions booked vs. available
- F&B revenue by package type and per-plate analysis

9.4 Financial Reports

- Invoice register: All invoices with status (Paid / Partial / Outstanding)
- GST summary (CGST + SGST) by month and property
- Advance collection report and BTC aging report
- Financial year–wise DS number register
- Outstanding balance report by client

9.5 Executive Dashboard

- Today: Total bookings, occupancy %, revenue, pending follow-ups
- Branch-wise comparison panel
- Upcoming check-ins and check-outs — next 7 days
- Banquet bookings for the week
- Top corporate clients by revenue — last 90 days
- Pending advances and payment dues

10. Non-Functional Requirements

10.1 Performance

- Page load time: < 2 seconds on standard broadband
- Calendar availability refresh: Real-time, < 500 ms response
- PDF document generation: < 5 seconds per document
- Minimum 50 concurrent users without performance degradation

10.2 Security

- Role-based access control (RBAC) enforced at both UI and API level
- All data over HTTPS / TLS 1.2+; passwords hashed with bcrypt
- Session timeout: 30 minutes of inactivity
- Audit log: All data modifications — user, timestamp, before/after values
- Two-factor authentication (2FA) for Super Admin and Finance roles

10.3 Availability & Reliability

- Target uptime: 99.5% (excluding scheduled maintenance)
- Scheduled maintenance: 2:00 AM – 4:00 AM IST
- Automated daily database backups — 30-day retention
- Recovery Time Objective (RTO): < 4 hours

10.4 Scalability

- New branches added without code changes — configuration-driven
- User accounts scalable to 500+ across all branches
- Database partitioned by property for performance isolation

10.5 Usability & Compliance

- Responsive design: Desktop, tablet, and mobile browsers
- Critical workflows completable within 3 clicks from dashboard
- Inline form validation with clear error messages
- GST invoice format compliant with Indian GST Act and CBIC guidelines
- Guest data retained minimum 7 years — Indian hospitality regulations
- Guest PII encrypted at rest and in transit

11. Module-wise Feature Summary

#	Module	Key Features
1	CRS — Centralized Reservation	Room type config (5+ types/branch), 5 rate types (RBI/Contract/Guest/Kings Discount/Specific), multi-branch availability calendar, 9-stage booking lifecycle, meal packages (CP/AP/MAP), GST auto-calc, check-in/out interface, group bookings, extra person charges, add-ons & complimentaries
2	Sales CRM	6 lead source types, duplicate prevention, 6-stage color-coded pipeline, quotation on letterhead (versioned), negotiation tracking, contract auto-generation (hotel/client flow), BTC contracts, corporate rate management, Kings Discount, unlimited action points, follow-up reminders, sales performance tracking, prospect calendar
3	Banquet & Event Mgmt	3 event categories (Corporate/Social/Group), 2 banquet types (with/without room), multi-venue management (hall/lawn/terrace), session-based slot blocking, 3-color status system (Red/Amber/Blue), function prospectus, flow-of-function timeline, 5-tier menu grid, guaranteed vs. actual PAX billing, 5% GST compliance
4	Corporate & Agent Mgmt	Corporate profiles with contract rates, BTC deferred billing, Kings Discount, rate suggest engine, rate change approval workflow, travel agent profiles, commission tracking, segment-wise CRM (Room / Room+Banquet / Banquet Only), no-duplicate enforcement
5	Financial & Billing	Auto DS numbering (financial year–based), GST invoicing (18%/5%), CGST+SGST split display, advance and balance tracking, BTC aging, 50% advance rule, cancellation and refund workflow, add-ons and complementaries, CC/BCC on all financial documents
6	Communication	Property-wise email routing (per branch identity), pre-built editable templates, preview-and-edit workflow, CC/BCC support, internal notifications (leads/APs/payments/conflicts), auto-triggered quotation and confirmation emails, pre-arrival reminders, post-stay follow-up
7	Reporting & Analytics	CRM pipeline reports, conversion funnel, lost lead analysis, occupancy and RevPAR, banquet utilization, venue slot analysis, GST summary, BTC aging, advance collection, DS number register, executive dashboard with branch comparison

13. Appendix

13.1 Booking Status Code Reference

Code	Meaning	Module
INQ	Inquiry — initial contact received	CRM, CRS, Banquet
QTN-HOLD	Quotation sent; room / venue on hold	CRS, Banquet
TENT	Tentative — partial advance or verbal confirm	CRS, Banquet

Code	Meaning	Module
CONF-U	Confirmed Unpaid — signed; payment pending	CRS
CONF-P	Confirmed Paid — advance received	CRS, Banquet
SOLD	Sold Out — no inventory for date/type	CRS
CXL	Cancelled	CRS, Banquet
CI	Checked In	CRS
CO	Checked Out	CRS
BTC	Bill to Company — deferred corporate billing	Finance
DS	Document Serial Number	Finance
AP	Action Point — follow-up task	CRM
RBI	Room Base Index — baseline rack rate	CRS, Corporate
